PROFESSIONAL SUMMARY

Software Developer with expertise in Full-stack development using ASP.NET and JavaScript frameworks. Strong foundation in DSA with 600+ problems solved. Strong understanding of relational and NoSQL databases, data modeling, authentication, and backend security practices.

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern – WEXNIX Technologies Ltd.

July 2026 – Present

Chittagong, Bangladesh

- Collaborated with senior developers on production-grade projects, quickly understanding .NET WebForm codebases and delivering accepted contributions within the first week.
- Resolved 35+ critical bugs across UI, CRUD operations, and SQL stored procedures for a School ERP platform serving 3,500+ students and 800+ staff.
- Fixed critical CSS/layout defects (image overflow, floating icons, misaligned form elements) across 50+ pages to improve UI consistency.
- Architected a unified 450-line search/pagination component by replacing a 1,080-line .aspx module (58% code reduction) by consolidating view/print logic and migrating state management from ViewState to URL query parameters in C#.
- Optimized complex relational database queries and stored procedures across multi-table schemas for real-time data aggregation, reducing query latency by 30%.
- Developed an asynchronous, debounced employee lookup feature using JavaScript, AJAX, and C# WebMethods, eliminating expensive database queries on initial page load.
- Normalized legacy string-based schema fields into indexed foreign-key relationships across a production database, propagating changes across 15+ dependent modules with zero data loss.
- Participated in meetings, collaboration, peer code reviews, and code documentation.
- Tech Stack: ASP.NET Core • SQL Server • HTML • JavaScript • CSS • EF Core • React • TypeScript

CORE SKILLS

- **Software Development:** HTML • CSS • JavaScript • TypeScript • C# • C++ • React • Node.js • Next.js • ASP.NET Core • API Development & Integrations • OOP • SOLID Principles • Tailwind
- **Database & Tools:** SQL • NoSQL • SQL Server • MongoDB • Git • GitHub • Docker • Postman

PROJECTS

StockBook – React • TypeScript • ASP.NET Web API • PostgreSQL • EF Core • TailwindCSS

- Developed a full-stack portfolio management application for investment tracking, stock analysis, and discussions.
- Built a responsive UI in **React** with search, filtering, sorting, and pagination.
- Designed **RESTful APIs** using **ASP.NET Web API**, with separation of concerns into **Controllers**, **Services**, and **Repositories**.

EDUCATION

- Bachelor of Science in Computer Science and Engineering
East Delta University – Chittagong, Bangladesh
- Senior School Examination (CBSE)
Gulf Asian English School – Sharjah, U.A.E
